ST. LOUIS, SATURDAY, OCTOBER 11, 1884.—TWELVE PAGES.

NO. 402.

I am happy to announce to my friends and the public generally that in company with my associates I have perfected the organization of the

Stephens Lithographing AND Engraving Co.

211 WASHINGTON AVE.

COMPOSED OF

ARTISTS AND SKILLED WORKMEN,

And we now Occupy the Commodious and Well-Lighted Building,

NO. 211 WASHINGTON AV.

OUR ESTABLISHMENT is fitted out with MESSRS. R. HOE & CO.'S

New and Latest Improved American Lithographic Power Presses!

The Finest and Most Rapid Lithographic Printing Presses in the world.
OUR COMPANY was organized October 4, with the following Directors:

W. E. STEPHENS, late of the firm of A. Gast & Co.

Mr. SYDNEY K. SMITH, Attorney.

Hon. J. L. STEPHENS, Columbia, Mo., Capitalist.

Mr. CARL MOLLER, of the firm of Fisher, Parker & Co., and

Mr. OTTO STARCK, for twenty years in the Lithographing business and with A. Gast & Co. for ten years.

THE OFFICERS are: W. E. STEPHENS, President. SYDNEY K. SMITH, Vice-President and Treasurer. OTTO STARCK, Manager of Mechanical Department, and with the following employees: Heads of Departments: Nicholas Bockius, Lithographic Transferer, 17 years with A. Gast & Co. Chas. S. Loeffler, Commercial Engraver, 7 years with Forbes Lithographing Company, Boston. John G. Kuenzel, Lithographic Pressman, 13 years foreman press-room of St. Louis Bank-Note Company.

WITH THESE FACILITIES, and our long and practical experience in the Lithographing business, we solicit the custom of our CITY BANKS and MERCHANTS and the BANKERS and MERCHANTS throughout the country for FINE BUSINESS CARDS, Bankers' Fine Drafts, Certificates of Deposit, Letter, Note and BILLHEADS, STOCK CERTIFICATES, Bonds, etc., Colored Show Cards and Labels, assuring them that, as WE ARE ALL ARTISTS and PRACTICAL MEN IN THE BUSINESS, we will execute their orders Promptly, Intelligently, Artistically, Honestly and Satisfactorily, guaranteeing to them to furnish the highest grade of work, both in design and execution. We will not, as some Lithographers do, charge you artists' prices and give you apprentices' work. No work from our establishment shall ever reach you except from the hands of ARTISTS AND SKILLED WORKMEN, and we will in no instance hold your orders to your detriment to combine with others, but will fill them WITH ALL POSSIBLE SPEED.

WE DULY APPRECIATE THE ADVANCE ORDERS ALREADY GIVEN US, and respectfully ask you to continue to command our services. When you wish any new and elegant designs or anything in our line, send for us and we will be glad to call at your office and receive your orders.

STEPHENS LITHOGRAPHING AND ENGRAVING CO.,

W. E. STEPHENS, President.

AMONG THE MINERS.

The Starving Workmen in the Hocking Valley.

Graphic News From a Region of Desolation
—The Blaine Syndicate Responsible—How the Miners Will Vote on Tuesday—The Ohio Battlefield.

Special Correspondence of the Post-Dispatch.

NELSONVILLE, Ohio, October 9.—A situation that is tragical obscures itself into Ohio politics when the wooded hills are crossed that bound the splendid valley of the Hocking River, one of the wealthiest of nature's storerooms, on the American Continent. Why the skeleton which grins at the desolation of the thousand homes in this region has no王者 in the land. These hills and apprise the people of the fertility and prosperity. Now here is presented an issue that diverts all other questions—the issue of life and death—not even the politicians seem to know. The men, women and children, who from sheds and brush tents on the hill sides, look longingly on the homes whence they have been evicted, understand the question so well, so horribly well, that it seems to them that all the balance of the world must understand it without their telling. They understand that up to a very recent date, to them of some twelve or fifteen thousand, were happy and prosperous in their employment by the corporations and individuals who are competing with each other in developing the coal and ore of the valley. They understand that one day

A GREAT STRIKE.

came in and swallowed up all the corporations and operators thus engaged, and that another day this syndicate issued the merciless order that competition being destroyed, all miners who had theretofore been receiving seventy cents per ton for digging mica, thereafter dig for fifty cents per ton or quit. They understand and remember that when they urged upon the syndicate the fact that their homes had been there for many years; that their children had been reared there; that to hunt new homes would be a desperate alternative, and that 30 cents per ton mica was a fair price, they were told that they were "crazy" with great good nature. "Fifty cents or quit!" They remember the evictions that followed their protest, and finally they remember that the most distinguished name in the list of stockholders of that syndicate, which they have so little reason to love—the name that was used for building it up and organizing it—is that

JAMES G. BLAINE.

If, while suffering from hunger and from rain, as many of them literally are, they smile grimly as they read in flaring circulars that the workingmen's millionaire will come the day they elect Blaine President, but not out of an unusual disregard to Mr. Blaine, but because they "can't help it." Then see on one side to this question, namely, that the syndicate prospers and the miners suffer. Explanations that the syndicate has a perfect right to prosper and that the miners have a perfect right to suffer are neither sought after nor welcome, although not infrequently offered by indiscreet de-

baters. And yet,

A TRIP TO-DAY THROUGH TWO SECTION.

where the scenes are darkest and the lines most rigidly drawn, has discovered the fact that, although the State Republican managers are unquestionably in error when they say that the evicted miners will stand by the Republicans, the miners will stand by the Republicans.

TWELVE PAGES.

THE OHIO BATTLEFIELD.

An Impartial Review Induces to a Democratic Victory.

The Reasons for This Belief—Two Important Interviews—The Hottest Political Fight in the History of the Country—Latest Claims of the Respective Parties—Republican Treasure—Governor Waller and Gen. Manney.

Putting aside the stereotyped assertions that they are sure to win, which the representative men on either side are making as a political matter of course, and regarding only those circumstances and collateral facts which go to constitute corroborative evidence, I am convinced that the situation to-day is far more favorable to a Democratic than a Republican victory on Tuesday next. The current and jubilant bragging among Democrats to-day has been "We've got 'em on the run." It is only necessary to say that this statement is incorrect. The Republicans may be slaughtered, but they manifest no disposition to run. Every man of them that I have questioned to-day has, with much seriousness, assured me that the contest was the hardest they were ever engaged in, and that there was no time for laughing, but they intend to win. Their managers are intensely sober, amazingly industrious, and given to making no remarks above a whisper. They are silent on the streets, save from hotel to headquarters or headquarters to hotel, and they are disgustingly averse to giving out information, and especially of their general character, as to what they are doing. Their headquarters on Third street, in a spacious old family mansion, are silent and dismal, but a small army of penmen and type writers are busy there night and day.

MR. BURLIN'S SANCTUM

is on the second floor and can only be reached after four or five pickets have been passed. Consequently very few men in Columbus have seen the inside of it. I have been here a week and have seen Dudley but once. Mr. Filley is with him most of the time and Governor Boutell of Maine spends a large part of each day in the building. Engineers are constantly going in and out, and the doors and stairs in many of the parlors are very expressive and discouraging to correspondents, who are hunting for a leak. If Mr. Dudley were to work all the time as he does now, he would earn much more than the \$5,000 per year he is drawing from the Government for his services.

Among the several strong evidences that the Republicans are not pleased with the status of affairs is the quite general disposition on their part to condemn their campaign committee as being so utterly inferior to the Democratic committee. In fact, the word incompetent has been frequently used in that connection to-day. No one

is favorable. The members of the committee

were not at all inclined that these gentlemen would have anything but praise for their campaign managers. Another very significant circumstance in the same line is the fact that, notwithstanding the now very positive evidence that all three of the anti-Prohibition organizations in the State have determined to support the Democratic ticket, the Republican statisticians still insist that no large portion of the German vote has left them. A third and very strong circumstance of the same kind is the fact that, in the face of the rather vindictive position the miners of the Indiana Valley took toward the Republicans, the assert that that vote will be lost in the day of battle comes, prove loyal to the Republican party, and yet, notwithstanding all of these claims, which seem to people who are mere lookers-on, to be untrue, not a single prophet among the Republican statesmen is willing to estimate a higher majority for his ticket than 10,000. As to how the bearing of the opposing forces affects an observer, I may quote

GOVERNOR WALLER

of Connecticut, who arrived here yesterday, for a couple of day's stay:

"When I left my home to come West," said he, "I did so with many misgivings for the fate of our country, but, when I arrived here, I found a quiet and satisfied state of the government. The gentlemen of the Department of State, the Ambassadors and Consuls, the Postmaster General, and the gentleman of the Department of War, all gave me the same assurance that the country was in safe hands. I have been here a week, and have seen Dudley but once. He is a man of great energy and ability, and I am sure he will do well. He has a good record, and I am sure he will be a good Governor. I have no doubt that he will be a good Governor."

"And how about the Democratic, Governor?"

is not a doubtful State at all. There is not the shadow of a doubt that the Democratic party will have things all its own way there."

A few moments later I had a conversation with Gen. G. Manney, which did not go very far in spirit, although it did not contradict the view which Gov. Waller had taken of the situation.

GEN. MANNEY

was a rebel general, but became a convert to Republicanism in 1860 and is now traveling with the Blaine party, making what he intended to be excellent speeches for the cause of the Plumed Knight. In the course of a long and informal conversation I had with him, in his opinion, was the effect of Mr. Blaine's long visit in the State.

"My dear boy," said he, "I was one of those who when the visit was proposed, took the view that it was unsafe, as in case of a failure here, the reaction might be quite disastrous. But I have been with him; have been watching the effects; see how people rush by thousands and tens of thousands to see and hear him, and I am finally convinced that my judgment was wrong and his visit has done splendid service to the party."

"Then, since you believe that the vote on Tuesday will be

EXCEEDINGLY CLOSE,

you must be of the opinion that had he not come the Democrats would have carried the State!"

"I confess I do entertain that opinion. I am an old campaigner, but I tell you, and I mean it, that never in my political career, St. Louis included, has there been a more interesting meeting for over a week, than has turned up in Omaha. A telegram received today says he has written two letters explaining his absence.

TO RECEIVE THE JUSTICES.

WASHINGTON, D. C., October 11.—The President is expected to return to Washington in time to receive the Justices of the United States Supreme Court at the White House Monday.

A STONE WALL.

FOREIGN NEWS.

Col. Stewart's Massacre Confirmed by Every New Report.

The Sicilian Cyclone Even More Destructive Than Was at First Supposed—Fire Still Smoldering in the Ruins of the Danish Capital—Marked Abatement of the Cholera in Spain—Notes and News.

CATANIA, October 11.—The Mudir of Dongola, agent at Ambukel and Governor of Merawa confirm the report of the murder of Col. Stewart by the Arabs. Gen. Wolesley has ordered the Mudir to proceed to the fair, nearly 20,000 visitors being on hand. The amphitheatre programme was a fine one, the spectators having brought out a magnificent display. Col. C. L. Hunt's Frogtown, by the little stream, was the most popular attraction.

At about 1 p. m. Secretary Wade was invited into the Swiss Department office and presented with a new service of silver, with an address, to which he replied:

"For to-morrow an excellent programme will be arranged. From 7 to 11 a. m. visitors will be closed to re-open from 2 until 4 o'clock p. m. In the afternoon all the best parties will be given. The Little Theatre to-morrow will be from 3 to 6 p. m., and will be given in the amphitheatre.

The excursion money.

One of the best attractions, and to judge by the crowds that are continually around the booth, the most attractive display in the Fair Grounds, is that of the mudirs and governors of the various districts.

Each mudir has a large number of slaves, and the beauty of their handsome booth is enhanced by numerous hanging baskets of the most beautiful vines and flowers. In the future, however, the mudirs of the famous Charter Oak Streets which form the body of their display, and by their latest improvement the Boax, which is the largest and most ornate of all the mudirs.

Mr. Stephen's blue ribbons are also very popular.

The famous wire gauze over door, of which this company makes a specialty, is also a great success.

Mr. W. E. Stephens' booth, where he exhibits his photographic prints, is also a great success.

He has a large number of photographs of the most interesting scenes in the world.

Mr. Stephen's idea of advertising the St. Louis Exposition through the wire gauze has been a decided success.

Mr. Otto Stark, the manager of the new company, is the artist who has made the improvements.

Mr. Stephen's idea of making it in photographic tints, and sold such an edition that the price was \$100,000.

TWELVE PAGES

SATURDAY, OCTOBER 11, 1884.

The Eighth District still languishes for a candidate to make things lively on the Republican side. It looks as if they would have to set up PINS again.

The Ninth District Democratic Congressional Committee is out with an appeal to the voters of the district to register. Let the unbought votes of the district bury MCLEAN out of sight.

If the directors of the Exposition want to secure a real curiosity, one that will astound everybody, let them exhibit a telephone in working order. We doubt whether such a thing exists in St. Louis.

The British workman cannot be much better off than his American cousin. Yesterday four thousand unemployed workmen of Glasgow held a meeting and passed resolutions asking assistance from the city.

BOD INGERSOLL was willing to defend DORSEY and BRADY, but flatly refuses to risk his reputation as an advocate by attempting to defend BLAINE. He is as timid in that respect as CONKLING and EDMUND.

The *Globe-Democrat* this morning retaliates on Dr. MCLEAN with the ferocity of a spring lamb. The *Globe-Democrat* is fond of judging public men by their record, but when public men undertake to judge the *Globe-Democrat* by its record, it covers itself with silence as a garment.

WHEN ELKINS invited BLAINE to come into the Standard Coal and Iron Company, he offered as an inducement the prospect of monopolizing the coal and iron interests of the Hocking Valley. The results of monopolizing these interests are shown in our special correspondence from the valley.

The *Globe-Democrat* reports that it is getting its rooster cuts in order for Wednesday morning. In case it should have no use for them it can perform a delicate act of journalistic courtesy by sending them to this office. We are not certain that we shall not set up a rooster ourselves on Wednesday.

THE MAGNIFICENT success of the St. Louis Fair and Exposition seems to be as gall and wormwood to the Chicago papers, and they say "it is an enormous waste of energy and a most unproductive form of amusement." It is Chicago, remember, and not St. Louis that is grieving over the balance sheet.

THE PROPER thing now would be for the citizens of St. Louis to meet and pass a vote of thanks to Mr. CHARLES GREEN, to the Veiled Prophet, to the Exposition directors, to the military, to SOCRATES NEWMAN of the Gas Company, to Sergeant WEEKE, who furnished the weather, and to every one who contributed to the success of the most successful Fair week on record.

It is said that QUEEN VICTORIA has already arranged for a marriage between her widowed daughter-in-law, the Duchess of ALBANY, and the Crown Prince of Wurtemburg. Ever since the funeral bakes made coldly furnish forth the wedding of KING HAMLET's widow, royal marriages have been very cold-blooded things. But this Albany affair is what we call in this country crowding the mourners.

BOTH PARTIES are accusing each other of meditating fraud in the Ohio election, and we know of no reason why anybody should doubt that both will commit all the fraud they can. But as the Republicans have the most money and a great outfit of trained office-holders to fix things, there is as little room to doubt that they will reap the field and leave but poor gleanings in the way of corruption and fraud for the Democrats.

THE PEOPLE of St. Louis will take a deep interest in the proceedings of the Public Health Association, which meets in this city next week and which has laid out an interesting programme of work. The appearance of the cholera in Europe has emphasized the importance of public sanitation, and the interests of the public health in St. Louis are not so admirably cared for that we can afford to neglect the recent progress of sanitary science.

JUDGE NOONAN yesterday discharged the publisher of an obscene newspaper on condition that the fellow would leave the city. This is not an unusual course, but it is extra-judicial and should be discontinued. The offence was committed in St. Louis and it was the duty of the authorities to punish the offender if he was found guilty. No law gives a judge authority to condemn crime, and sending a criminal from one city to another serves no end of justice.

SOMEBODY played a very mean trick on Rev. Mr. NOURSE of La Crosse, Wis. He was induced to state that the Democrats were offering to withdraw CLEVELAND, if Professor SKELLY of Amherst College would take his place on the ticket. Mr. Nourse said he derived his information from a private letter written to him by Prof. SKELLY. The latter, however, testifies that

he never heard of such a proposition, nor of the Rev. Mr. Nourse, and never wrote to him or received a letter from him in his life. For a clergyman, Mr. Nourse is placed in a very uncomfortable position.

OUR OHIO NEWS.

In the matter of news and in the statement of facts the Post-Dispatch knows no such thing as politics. Our report from the contest in Ohio come from our own special correspondent, whose sole instruction is to report facts as he finds them, and to tell the truth about the very uncomfortable position.

BRUSSELS. The \$1,000,000 sent by the big monopolists to carry Ohio for BLAINE there is a tremendous amount of balloting going on in the large manufacturing establishments of that State. An Ohio company known as the Swift Iron and Steel Works, in a suburb of Cincinnati, sent on Wednesday the following notice to each of its five hundred employees:

DRAMATIC.

Coming Attractions at the Theaters
Next Week.

"Excelsior"—The Florence—"The Silver King"—Scanlan, and Other Attractions—Stage Gossip and Notes.

The week just terminating has been prolific of excitement, and in no one direction has the hub been incident to the unusual events transpiring been more noticeable than with the theaters—the majority of them at least. With thousands of strangers knocking at our doors for entertainment, the city fortunately been equal to the demand, and supplied a decidedly varied and attractive means of affording satisfactory pleasure and enjoyment. The throngs drawn hither have been well cared for in the magnificent diversity of amusements provided, and the managers, who have boasted in their offer share of the patronage. Notwithstanding the country attractions of the Exposition, Veiled Prophets and other parades, and the fluctuations of a giddy weather clerk, who started in bady, but cooled off toward the end of the week, the majority of the theaters have had a good time with the public, and have turned out in our instances people have been turned away. From the middle of the week to the end there have been more managerial contentions than heretofore.

* * *

While the attractions have been unusually good, those for the coming week will include some of the notable successes in the spectacular micro-drama and farce, while the musical and dramatic production of spectacular plays, "Excelsior," will be presented under the direct supervision of its own author, Mr. John F. Sheridan, and his private secretary did so much to make his play a success.

Mr. Frederick Ward has begun his season prosperously. He is supported by Mr. Henry Arding and Mitions Willard and a company competent to cast "Virginius," "Richard," "Damon and Pythias," "Humble-Dumpty" at the Standard, "Devil's Advocate" at Pepe's, "Captain Masher" at the People's, and a number of the present attractions at the Casino will close tonight.

Miss May Woolcott of Jefferson's Company was recently quite injured at Ontario, and she fell on her face, breaking her nose and receiving many severe bruise.

The reproducer of the male de ballet and pantomime, Mr. T. Raymond proves to be the best Fisher of the Arbeiter-Zeitung. Mr. Fisher called his play "Acme," but Mr. Raymond will rechristen it.

John Moore is said to be worth about \$100,000, invested principally in United States bonds.

The Boston Opera says "the new Music Hall in St. Louis" to be completed in February, and a great musical festival will be held in during the spring, which is to "eclipse in grandeur" the first musical festival ever held in Boston.

Mr. Fry will be produced in New York next Monday.

Mr. Chapman leaves a large estate to his wife and two sons. The eldest son, Henry, will succeed his father in the role of Kit in the play that name.

Mr. Chapman, the wife, will probably retire permanently from the stage, it is said.

Mrs. Langtry is to appear in London in conjunction with the English Opera, play of "Serge Panine." It will be remembered as a failure at D'Oyly Carte's.

"The Peacock" and "The Wreath" will be produced in New York next Monday.

Mr. Chapman leaves a large estate to his wife and two sons. The eldest son, Henry, will succeed his father in the role of Kit in the play that name.

Mr. Chapman leaves a large estate to his wife and two sons. The eldest son, Henry, will succeed his father in the role of Kit in the play that name.
